

## Community Educator

The Royal Life Saving Society works to prevent drowning and ensure that all waterways can be enjoyed safely by all Australians. Royal Life Saving (RLS) has a goal of achieving a 50% reduction in the number of drowning deaths by the year 2024. It is only through coordinated, locally driven campaigns and partnerships that we are able to accomplish this.

Royal Life Saving's Community Educators play a vital role in enabling the organisation to achieve our objectives. Through the delivery of interactive water safety presentations and workshops, Community Educators work directly with NSW communities to help build fundamental water safety knowledge and skills and saves lives.

<b>Work Location</b>	All regions / Local Government Areas of Sydney, NSW
