

Are you
summer
ready?

Now's the time to check in with yourself and your family so you can safely enjoy a water way of life this summer.

Learn the risks

Understanding the risks and knowing how to assess dangers will help your family make smarter choices around water.

Get your vessel ready

Download the Boating Safety Guide available on our website.

Check your lifejackets

Make it a habit to check your lifejackets every spring for signs of wear and tear. If your jacket auto inflates, also check the cartridge is hand tight and still in date. If you find your jacket is cracked, broken or mouldy, it's time to buy a new one.

Learn how to save a life

Make sure your first aid and CPR is up to date so you're prepared if an accident is to happen. This is particularly important in remote and rural areas where help may be far away.
