

Are you
summer
ready?

Now's the time to check in with yourself and your family so you can safely enjoy a water way of life this summer.

Check your pool fence and gate

Your pool fence and gate should be secure and in good working order. Check in with your local council to ensure your pool is compliant.

Check the area around the pool fence

Make sure the area around the pool fence is clear of any climbable objects – including chairs, tables, trees, pot plants and BBQs.

Check your safety signs

Ensure you keep a current Resuscitation Sign displayed prominently in the pool area.

Check your pump, grates and suction fittings

Ensure that no fitting is broken or missing, and grates and covers are securely in place.
